DAVID GRAY WIDDER

david.g.widder@gmail.com   www.davidwidder.me

Degrees and Academic Employment

Digital Life Initiative, Cornell Tech, New York City, New York. September 2023–Present
Postdoctoral Fellow, working with Professors Helen Nissenbaum and James Grimmelmann.

Ruhr University Bochum, Germany. June 2024
Visiting Researcher, hosted by Professor Uta Wilkens in the Institute of Work Science.

School of Computer Science, Carnegie Mellon University, Pittsburgh, Pennsylvania. 2017–2023
PhD in Software Engineering.
Committee: Laura Dabbish & James Herbsleb (co-chairs), Dawn Nafus, Jay Aronson
Thesis title: "Ethics down the AI supply chain: playing with power"

Masters of Science in Software Engineering, earned 2021

Robert D. Clark Honors College, University of Oregon, Eugene, Oregon. 2013-2017
Bachelor of Science in Computer Science, *Magna Cum Laude*
Committee: Stephen Fickas (chair), Helen Southworth, Boyana Norris

Working Papers

David Gray Widder, Helen Nissenbaum, James Grimmelmann. "Accountability and Liability in 'General Purpose' AI Technologies: GPT is GPT?." Work in progress.

David Gray Widder, Sireesh Gururaja, Lucy Suchman. "Basic research, explosive effects: The US Military Dreams of AI." Work in progress.

David Gray Widder, Tamara Kneese. "Low Resource NLP and Salvage Anthropology: Lessons to Bolster Computer Science's Critical Turn." Work in progress.

David Gray Widder, Mar Hicks. "Watching the Generative AI Hype Bubble Deflate." Preprint PDF.

David Gray Widder, Harini Suresh, Nikki Stevens. "Intersectionality Doesn't Scale." All authors contributing equally. Work in progress.

Blair Attard-Frost and **David Gray Widder.** "The Ethics of AI Value Chains: An Approach for Integrating and Expanding AI Ethics Research, Practice, and Governance." Under review, 2023 preprint: PDF, TLDR.

Peer-Reviewed Publications

David Gray Widder, Sarah Myers West, and Meredith Whittaker. "Open (for Business): Big Tech, Concentrated Power, and the Political Economy of Open AI." To appear in *Nature*. 2023 preprint: PDF, TLDR.

David Gray Widder and Claire Le Goues. "What is a 'bug'? On subjectivity, epistemic power, and implications for software research." To appear in *Communications of the ACM*, November 2024. Preprint: PDF, TLDR on Twitter, Mastodon.

David Gray Widder, Laura Dabbish, James Herbsleb, Nikolas Martelaro. "Power and Play: Investigating 'License to Critique' in Teams' AI Ethics Discussions." To appear in: *Proceedings of*

the ACM Conference on Computer-Supported Cooperative Work And Social Computing (CSCW), 2024. PDF. TLDR on Twitter, Mastodon.

David Gray Widder. "Epistemic Power in AI Ethics Labor: Legitimizing Located Complaints." In: *Proceedings of the ACM Conference on Fairness, Accountability, and Transparency* (FAccT), 2024. PDF. TLDR on Twitter, Mastodon.

Madiha Z. Choksi, Ilan Mandel, **David Gray Widder**, Yan Shvartzshnaider. "The Emerging Artifacts of Centralized Open-Code." In: *Proceedings of the ACM Conference on Fairness, Accountability, and Transparency* (FAccT), 2024. Preprint: PDF.

Sireesh Gururaja*, Amanda Bertsch*, Clara Na*, **David Gray Widder**, Emma Strubell. "To Build Our Future, We Must Know Our Past: Contextualizing Paradigm Shifts in Natural Language Processing" *denotes equal contribution. In: *Empirical Methods in Natural Language Processing* (EMNLP), 2023. 23% acceptance rate. PDF, TLDR on Twitter, Mastodon.

David Gray Widder and Dawn Nafus. "Dislocated Accountabilities in the AI Supply Chain: Modularity and Developers' Notions of Responsibility." In: *SAGE Journal of Big Data & Society,* 2023. PDF, TLDR.

David Gray Widder*, Derrick Zhen*, Laura Dabbish, James Herbsleb. "It's about power: What ethical concerns do software engineers have, and what do they (feel they can) do about them?" *denotes equal contribution. In: *Proceedings of the ACM Conference on Fairness, Accountability, and Transparency* (FAccT), 2023. 24% acceptance rate. PDF, Video, TLDR on Twitter, Mastodon.

David Gray Widder, Dawn Nafus, Laura Dabbish, James Herbsleb. "Limits and Possibilities for 'Ethical AI' in Open Source: A Study of Deepfakes." In: *Proceedings of the ACM Conference on Fairness, Accountability, and Transparency* (FAccT), 2022. 26% acceptance rate. PDF, Video, TLDR.

Hana Frluckaj, Laura Dabbish, **David Gray Widder**, Sophie Huilian Qiu, James Herbsleb. "Open Source Software Participation Trajectories for Male and Female Participants" In: *Proceedings of the ACM Conference on Computer-Supported Cooperative Work And Social Computing* (CSCW), 2022. 25% acceptance rate. PDF, Video.

David Gray Widder, Laura Dabbish, James Herbsleb, Alexandra Holloway, Scott Davidoff. "Trust in Collaborative Automation in High Stakes Software Engineering Work: A Case Study at NASA." In: *Proceedings of the ACM Conference on Human-Computer Interaction* (CHI), 2021. 26% acceptance rate. PDF, Video, TLDR.

David Gray Widder, Michael Hilton, Christian Kästner, and Bogdan Vasilescu. "A Conceptual Replication of Continuous Integration Pain Points in the Context of Travis CI." In: *Proceedings of the ACM Joint European Software Engineering Conference and Symposium on the Foundations of Software Engineering* (FSE), 2019. 24% acceptance rate. PDF, Replication Package.

David Gray Widder, Joshua Sunshine, Stephen Fickas. "Barriers to Reproducible Scientific Programming." In: *Proceedings of the IEEE Symposium on Visual Languages and Human-Centric Computing*, Short Research Papers Track (VL/HCC), 2019. 44% acceptance rate. PDF.

Zack Coker, **David Gray Widder**, Claire Le Goues, Christopher Bogart, and Joshua Sunshine. "A Qualitative Study on Framework Debugging." In: *Proceedings of the IEEE Conference on Software Maintenance and Evolution* (ICSME), 2019. 23% acceptance rate. PDF.

Courtney Miller, **David Gray Widder**, Christian Kästner, and Bogdan Vasilescu. "Why do People Give Up FLOSSing? A Study of Contributor Disengagement in Open Source." In: *Proceedings of the Conference on Open Source Systems* (OSS), 2019. Unknown acceptance rate. PDF.

David Gray Widder, Christian Kästner, Michael Hilton, Bogdan Vasilescu. "I'm Leaving You, Travis: A Continuous Integration Breakup Story." In: *Proceedings of the Conference on Mining Software Repositories, Short Research Papers Track* (MSR), 2018. 27% acceptance rate. PDF.

Other Publications

David Gray Widder and Richmond Wong. "Thinking Upstream: Ethics and Policy Opportunities in AI Supply Chains." In: *Designing Technology and Policy Simultaneously: Towards A Research Agenda and New Practice,* 2023. A workshop co-located with CHI'23. Link.

David Gray Widder. "Gender and Robots: A Literature Review." Technical Report, 2019. Link.

David Gray Widder. "Gender in Open Source Communities: Different Migration Patterns and Forms of Work." *VL/HCC Graduate Consortium,* 2019. Link.

David Gray Widder. "Tensions Between Scientific Programming and the Scientific Method." *Undergraduate Honors Thesis.* Pass with Honors, 2017. Link.

David Gray Widder. "What Are Barriers to Efficient ROS Debugging?" *REUSE Poster Session.* 2016.

Related Work Experience

Responsible AI Research Intern, Intel Labs. Remote. July 2021 – May 2022

Designed and led research to improve company Responsible AI policy

Findings were presented to C-suite decision makers as AI policy recommendations

Led two workshops to translate findings into AI Ethics policy improvements

Presented findings to 150+ employees in two internal invited talk series

Responsible AI Research Intern, Microsoft Research. Washington. February – May 2020

Interviewed adopters of pilot AI Ethics guidance to find technical and organizational barriers

Presented findings to C-suite decision maker to inform internal Ethical AI policy roll out

Trustworthy AI Research Intern, Jet Propulsion Laboratory, NASA. California. June – August 2019

Conducted interviews, participant observation, and user studies to study software engineer's trust in an automated software engineering tool

Presented usability improvements to software team to improve software framework

Invited Conferences

"The UK's industrial strategy for AI" workshop hosted by Matt Davies of the Ada Lovelace Institute. Virtual, 14 May 2024.

"Convening on the Political Economy of AI" hosted by Danielle Allen at Harvard Kennedy School's Ash Center for Democratic Governance and Innovation. Cambridge, Massachusetts, 8 May 2024.

"Workshop on Advancing Responsibility in Open Foundation Models" invitational hosted by Github and the Partnership on AI. San Francisco, April 11 2024.

Selected Invited Talks and Panels

Invited Academic Talks

Topic TBD. Invited lecture, hosted by Professor Ken Holstein for the **Carnegie Mellon** HCII Seminar Series, scheduled for 28 February 2024.

"Low Resource NLP and Salvage Anthropology: Lessons to Bolster Computer Science's Critical Turn," hosted by Professor Lauren Goodlad for the **Design Justice AI Institute**, Pretoria, South Africa. 8 July 2024.

"Trustworthy AI is about Context: Lessons from an Ethnography at NASA." Invited lecture, hosted by Professor Nicole Krämer in the **Research Center Trustworthy Data Science and Security**, Dortmund, Germany. 26 June 2024.

"Basic research, explosive effects: Researcher Disavowal in US Military AI Research." Invited lecture, hosted by Zsuzsanna Ihar for the "(Dis)arming academia – tracing the military-industrial-university complex" workshop, Centre for Research in the Arts, Humanities and Social Sciences, **Cambridge University**. 19 June 2024.

"AI Supply Chains: Glued to Big Tech, Disavowing War." Invited lecture, hosted by Professor Seda Gürses for the Programmable Infrastructures Project, **Delft University of Technology**, Netherlands. 13 June 2024.

"Open (for Business): Big Tech, Concentrated Power, and the Political Economy of Open AI." Invited lecture, hosted by Professor Seda Gürses, **Delft University of Technology**, Netherlands. 12 June 2024.

"Epistemic Power in AI Ethics Labor: Legitimizing Located Complaints." Invited lecture, **New York Academy of Sciences**, 23 May 2024.

"Ethical AI is about power: more FAT* algorithms, AI openness, or 'objective' evidence will not save us." Invited lecture, hosted by Professor Olga Russakovsky, at **Princeton University**, 13 November 2023.

"Smart Cities, Smart Buildings, and IRBs: the Insufficiency of Ivory Tower Research Governance." Invited lecture, hosted by Professor Madelyn Rose Sanfilippo, at **University of Illinois at Urbana-Champaign**, 9 November 2023.

"Putting Human-AI Trust in an Organizational and Supply Chain Context." Invited lecture, hosted by Professor Uta Wilkens, at **Ruhr University Bochum**, 6 November 2023.

"'Openness' in AI Production: Upsides, Downsides, and Middle Ground Approaches." Invited lecture, hosted by Professor Maarten Sap, at the **Allen Institute for AI**, 6 April 2023. Slides, Video.

"// MODULARITY, BUG // An Anthropological Examination of the Epistemic Implications of Two Core Ideas in Computer Science." Invited lecture and panel discussion at the annual meeting of the **Society for Applied Anthropology**, Cincinnati, with panel chair Professor Hsain Ilahiane, 30 March 2023. **2023 Beatrice Medicine Award Winner**. Slides.

"Ethical AI in Open Source." Invited lecture, hosted by Dr. Ola Michalec for the Data Ethics Club at the **University of Bristol**, 8 March 2023.

"AI Trust in a High Stakes Workplace: An Ethnography at NASA", hosted by Senior Lecturer Rikke Jensen at the Information Security Group at **Royal Holloway University of London**, 1 June 2022.

Invited Course Lectures

"Epistemic Power in AI Ethics Labor: Legitimizing Located Complaints." Invited lecture, hosted by Professor Brooke Erin Duffy for her Gender and Media course at Cornell University, scheduled for 18 November 2024.

"The AI Supply Chain and Employee Concerns: AI Ethics as a Workplace Issue", Invited lecture, hosted by Professor Uta Wilkens for her Managing Change and Human Resources in Digital Transformation course, 24 June 2024.

"Epistemic Power in AI Ethics Labor: Legitimizing Located Complaints." Invited lecture, hosted by Professor Helen Nissenbaum for the Digital Life Initiative seminar at Cornell Tech, 25 April 2024.

"Epistemic Power in AI Ethics." Invited lecture, hosted by Professor Nicki Dell for her Technology and Social Justice course at Cornell Tech, 12 March 2024.

"Situated Trust and Ethics." Invited lecture, hosted by Professor Motahhare Eslami for her Human-AI Interaction course at Carnegie Mellon, 12 February 2024.

"Trust and Ethics in Software Supply Chains." Invited lecture, hosted by Professor Kenneth Huang for his Development Tools and Visualizations for HCI course at Penn State, 31 January 2024.

"Where are we? Where might we go? Situating 'Ethical AI' in our future careers." Invited lecture, hosted by Professors Kyra Gan and Volodymyr Kuleshov for their Applied Machine Learning course at Cornell Tech, Cornell University, 30 November 2023.

"Trust in Human-AI Interaction: Context Matters." Invited lecture, hosted by Professor Haiyi Zhu's Human-AI Interaction course, Human-Computer Interaction Institute, Carnegie Mellon University, 11 October 2023.

"Openness in AI: Upsides, Downsides, and Corporate Power." Invited lecture, hosted by Jennifer Dumas, JD, at the Seattle University Law School, 21 June 2023.

"Where are we? Where might we go? Situating "AI for Social Good" and "Ethical AI" in our Future Careers and at our University", for Professors Emma Strubell and Maarten Sap's Computational Ethics for NLP course, Language Technologies Institute at Carnegie Mellon University, 16 February 2023, and for earlier iteration of course with Professors Emma Strubell and Alan Black on 5 April 2022.

Invited Panels

"Ethics of Language Modeling." Invited Panel, hosted by Helen Nissenbaum at the Conference on Language Modeling (COLM) in Philadelphia, scheduled for 7 October 2024.

"What can openness give us? AI & the Commons." Invited Panel, with Sarah Myers West, hosted by Alek Tarkowski and Alicja Peszkowska of Open Future. 11 December 2023.

"Artificial Intelligence, openness, and 'existential' risk: well informed vibes on what is hype and what is real." Invited Panel, with Avijit Ghosh and Fabio Tollon and hosted by Wei Sun, at the Boston Computation Club. 7 October 2023. Video.

"Who is building open source AI?", with Marzieh Fadaee, Abinaya Mahendiran, Mophat Okinyi and hosted by Jennifer Ding and Arielle Bennett of the Turing Institute. 21 September 2023. Video.

"Upstream AI Supply Chains." Fireside chat, in conversation with Catherine Stihler, CEO of Creative Commons, moderated by Luis Villa, General Counsel of Tidelift, as part of the Upstream conference. 7 June 2023. Video.

Invited Industry Talks

"'Ethical AI' Across the AI Supply Chain: The Developer's Perspective", with Dawn Nafus at the Intel Insights Discussion Forum invited talk series, hosted by Michael Jacobson at Intel Corporation, 16 December 2021, and presented earlier at the Data Science Center of Excellence invited talk series, hosted by Joyce Weiner at Intel Corporation, 9 September 2021.

"'Responsible AI'? Complicating and Situating Accountability, Transparency, and Trust", invited by Dr. John W. Sherry to present to the User Experience Innovation Lab, Intel Labs, 20 May 2021.

"Usability Barriers in the F-prime Flight Software Framework", hosted by Dr. Scott Davidoff and Jeff Levison at the Jet Propulsion Laboratory, August 2019

Public Scholarship and Selected Media

I started and facilitate a weekly Reading Group, currently reading at the intersection of Queer and Feminist Science and Technology Studies, and Critical AI. We meet on Thursdays at 3:30pm ET. Open to all, but on summer hiatus.

Press Coverage

Spoke about my research on limits of Open Source AI: "Openwashing", Sarah Kessler writing for the New York Times. 17 May 2024.

Spoke about our research on AI benchmark culture: "Why most AI benchmarks tell us so little", Kyle Wiggers writing for TechCrunch. 7 March, 2024.

Spoke about our research on open source Deepfakes: "The Dark Side of Open Source AI Image Generators", Lydia Morrish writing for Wired. 6 March 2024.

Research preprint quoted as "reality check" in Axios: "Stanford study outlines risks and benefits of open AI models." Ryan Heath writing for Axios. 27 February 2024.

Research preprint quoted in the Associated Press: "White House wades into debate on 'open' versus 'closed' artificial intelligence systems", Matt O'Brien writing for Associated Press. 21 February 2024.

Luddite activism mentioned in The New Yorker: "Revenge of the Luddites." Sheelah Kolhatkar writing for The New Yorker. 23 October 2023.

Research preprint covered in Wired: "The Myth of 'Open Source' AI", Will Knight writing for Wired. 24 August 2023.

Research preprint covered in Fortune: "The ugly truth about 'open' A.I. models championed by Meta, Google, and other Big Tech players", Sage Lazzaro writing for Fortune. 22 August 2023.

Activism profiled in article: "Computer scientists designing the future can't agree on what privacy means", Eileen Guo and Tate Ryan-Mosley writing for MIT Technology Review. 3 April 2023.

Research paper featured in French tech news site: "Comment se construit la confiance dans un logiciel de génération automatique de code?", Martin Clavey writing for NextInpact. 9 February 2023.

Spoke about our research on software engineers' ethical concerns: "Twitter Employees on Visas Can't Just Quit", Chloe Xiang writing for Vice's Motherboard. 18 November 2022.

Spoke about our research on open source contributor disengagement: "Small open source projects pose significant security risks", Stephanie Glen writing for TechTarget. 28 November 2022.

City Council testimony, newspaper interview: "Pittsburgh City Council told facial recognition bill should be stronger", Tom Davidson reporting for Pittsburgh Tribune-Review, 2 September 2020.

Podcast Appearances

Podcast interview: "Open", in conversation with Mél Hogan on The Data Fix, released 23 October 2023. Link.

Anthropology podcast interview: "Developing Responsible AI", in conversation with Dawn Nafus and Adam Gamwell on This Anthro Life, 2 June 2023.

Podcast Interview: "Building creative restrictions to curb AI abuse", in conversation with Stefano Maffulli, Executive Director of the Open Source Initiative, as part of their Deep Dive AI podcast series. 6 September 2022.

Podcast interview: "Computers Aren't Demigods: On the existence of Bias-Free systems", in conversation with hosts Ellie Young and Matt Lepinski on Byte Size, 4 May 2021.

Public Scholarship

Invited summary of research and activism for ACM's student magazine: "Ethical Tech Begins with Ethical Workplaces: Power dynamics in companies and universities" David Gray Widder writing for ACM XRDS. 28 June 2024.

Research summary in AI Ethics newsletter: "AI supply chains make it easy to disavow ethical accountability", David Gray Widder writing for the Montreal AI Ethics Institute. 9 August 2023.

Wrote article for software engineering practitioner blog: "Can you stop your open-source project from being used for evil?", David Gray Widder writing in the Stack Overflow blog, 8 Aug 2022.

Wrote article for software engineering practitioner blog: "'Ethical AI' isn't just how you build it, it's how you use it", David Gray Widder writing in the Stack Overflow blog, 30 May 2022.

Other Public Works and Media

Profile of impact of recent work: "Widder Wins Beatrice Medicine Award for AI Ethics Research", Josh Quicksall writing in S3D's departmental news brief. 1 August 2023.

Quoted in white paper on Open Source AI, released by the Open Source Initiative governing body: "Deep Dive: AI - Final Report." Stefano Maffulli, Executive Director, Open Source Initiative. 28 February 2023.

Email interview, research paper quoted in practitioner blog: "The robots are coming for (the boring parts of) your job", Eira May writing in the Stack Overflow blog, 21 April 2022.

Co-lead letter campaign with Victoria Dean for anti-racist institutional change within CMU's School of Computer Science, with 40 research-supported, actionable demands, accruing 605 signatories and 110+ personal testimonies. "Towards Anti-Racist Change in the School of Computer Science", 11 September 2020. Link to signed letter.

Teaching and Pedagogical Activities

Teaching and Pedagogical Design

Advocated for, developed, and delivered the first ethics content in Carnegie Mellon's Software Engineering PhD curriculum. Curated reading assignments, delivered lectures, facilitated accompanying discussions, and graded reading responses. *Introduction Course for Software Engineering PhD Students,* with Professors Jonathan Aldrich and Christian Kästner. Fall 2022, 2023. PDF of readings and discussion questions for Ethics in Software Engineering Practice, Ethics in Software Engineering Research, slides for both lectures.

Designed and led a credit-bearing course "People>Computers? Technology Advancing Humanity" to playfully introduce first year students to core computer science ideas while orienting them at university. Fall 2015, with Professor Helen Southworth.

Executive Education

Developed and delivered the Ethics Module in Executive Education course, including assignment design, lecture materials development and delivery: "Beyond Bias: AI Ethics in Business", for Professor Karan Girotra's Generative AI For Business Transformation executive course at eCornell, 20 May 2024.

Teaching Assistant

Teaching Assistant for Ethics and Policy Issues in Computing, Spring 2021. Course Instructors: Laura Dabbish and James Herbsleb, Carnegie Mellon University. Held office hours, lead breakout discussions, graded and gave feedback on exams and assignments.

Teaching Assistant for Human Factors in Human-Computer Interaction, Fall 2019. Course Instructor: Laura Dabbish, Carnegie Mellon University. Guest lectured, held office hours, graded and gave feedback on exams and assignments.

Evidence of Educational Impact

University of Michigan's School of Information "Doctoral Foundations Seminar": my paper is required reading for this course, itself required of all first year PhD in Information students

John's Hopkins "AI Ethics and Social Impact" course: my paper is required reading

University of Southern California "History and Language of Computing" required PhD course assigns my work as required reading

Cambridge University's "LLM Law, Technology, and Society" course: my paper is recommended reading

Northeastern IDEAS 2024 summer undergraduate program assigns my paper as required reading

Rutgers University "Teaching Critical AI Literacies" policy document references my work

Rochester Institute of Technology's minor in Free and Open Source Software and Free Culture teaches from my work

Student Research Mentorship

Feature about my mentoring work: "REUSE Mentors Students to Success", Cristina Rouvalis writing in The Link, Magazine of CMU's School of Computer Science, Summer 2019. Related video.

Madiha Zahra Choksi, 2023 – Present, PhD student at Cornell Tech

Travis Lloyd, 2023 – Present, PhD student at Cornell Tech

Amanda Bertsch, 2022 – Present, PhD student at Carnegie Mellon University

Sireesh Gururaja, 2022 – Present, PhD student at Carnegie Mellon University

Clara Na, 2022 – 2023, PhD student at Carnegie Mellon University

Derrik Zhen, 2022 – Present, undergraduate at Swarthmore College

Lyric Sampson, 2022, undergraduate at Alabama Agricultural and Mechanical University

Hana Frluckaj, 2019 – 2020, while an undergrad at Carnegie Mellon University, now a PhD Student at University of Texas at Austin

Courtney Miller, 2018 – 2019, while an undergrad at New College of Florida, now a PhD Student at Carnegie Mellon University

Jamie Rosas-Smith, 2018, while an undergrad at Wellesley College, now a PhD student at Johns Hopkins University

Activism and Community Service

Here I highlight work that is too often unrecognized and unvalued by the academy.

Against Carceral Tech Pittsburgh. 2022-Present

Organizing across the CMU and wider Pittsburgh community against carceral technology, including law enforcement use of facial recognition, predictive policing, and military contractor recruitment on campus.

CMUBetter. 2022-2023

Building graduate student solidarity towards a workers' union to achieve better pay and working conditions.

Towards an Anti-Racist School of Computer Science. 2020

Co-lead the development of a petition demanding research-backed policy changes to enable better recruitment, retention, promotion of minoritized students and faculty, and ensure beneficial impact on the Pittsburgh community, accruing 600 signatures: Link, Accountability Tracker.

#NoTechforICE organizer. 2019
Organizing against Immigration and Customs Enforcement and contractor companies recruitment events on campus, allied with Mijente.

Judge of Elections 2023. **Election worker** 2020-2022.
Pittsburgh Ward 8 District 3: ensuring all eligible voters can easily vote, educating skeptical voters about election integrity and the importance of broad access to the vote.

Institutional Service

Application Reviewer, Research Experience for Undergraduates, 2018-2023
Reviewed 25-35 applications for the REUSE program yearly.

Dean's PhD Advisory Committee, Co-Director, 2017 - 2020, Member, 2020 - 2021
Advocating for SCS PhD student interests to Dean: i.e. healthcare, anti-racism, advising issues.

Departmental Climate Task Force, Student Co-Chair, 2018 - 2019
Committee tasked with improving departmental climate, inclusiveness, and diversity.

Nominee for Carnegie Mellon University Graduate Student Service Award, 2019
Nominated for school-wide award recognizing my advocacy for graduate student causes

Research Experience for Undergraduates in Software Engineering Mentor, 2018, 2020
Mentored summer undergraduate research interns as part of the REUSE summer program

Professional Service

SAGE Social Studies of Science (SSS), 2024 Reviewer

Doctoral Consortium Co-Chair for Northeast HCI Meeting (providing networking opportunities for junior scholars who are conscientious objectors to CHI in Hawaii), 2024

ACM Conference on Fairness, Accountability, and Transparency (FAccT), 2023, 2024 Reviewer

Springer AI and Ethics Reviewer, 2024

SAGE Big Data & Society (BD&S), 2023 Reviewer

ACM Conference on Human-Computer Interaction (CHI), 2020, 2021, 2023, *not* 2024 Reviewer

IEEE/ACM International Conference on Automated Software Engineering (ASE), 2018 Sub-reviewer

IEEE Transactions on Software Engineering (TSE), 2018 Sub-reviewer

Memberships and Affiliations

Coveillance Collective: arts and technology group building counterpower to surveillance

Association for Computing Machinery (ACM); Special Interest Groups for: Software Engineering (SIGSOFT), Computer-Human Interaction (SIGCHI)

Upsilon Pi Epsilon, Honor Society for Computing and Information Disciplines
